---

WORK EXPERIENCE

SOFTWARE ENGINEERING:

FULL STACK SOFTWARE DEVELOPER WITH MRSOFT   **2022 - 2026**

- I also collaborated with a team of developers to build a multi-functional robust errand app that allows skilled and unskilled professionals to help clients with household jobs which includes car repairs, home laundry services and others. The app also allows users to purchase items from a market place store. It also has logistics and inventories.

REMOTE JOB

- I also collaborated with a team of developers to build a robust Real Estate Management App where I worked on the Backend using Nest and Postgres.

PROJECTS

- eboyboy: where I gained Full Stack experience and improved accuracy
- Sheltterlinks: I worked on virtual tour and others

MARINE ENGINEER:

- ➢ On filter work either by Day or night watches
  - Within main Engine and Boiler space.
  - Outside main Engine and Boiler space

- ➢ On Deck Machinery

- ➢ On regular watch on main engine
  - As first Engine room assistant under senior in full charge.
  - As second or junior Engine room assistant
  - Fourth engineering officer/oiler

- ➢ On regular watch on generators
  - In charge of a section of generator under senior in full charge
  - As generator assistant

- ➢ On a regular watch on main engine and generator simultaneously
  - In full charge of entire watch
